

## TWO DAY DRAWING WORKSHOP

TUTOR: De Gillett

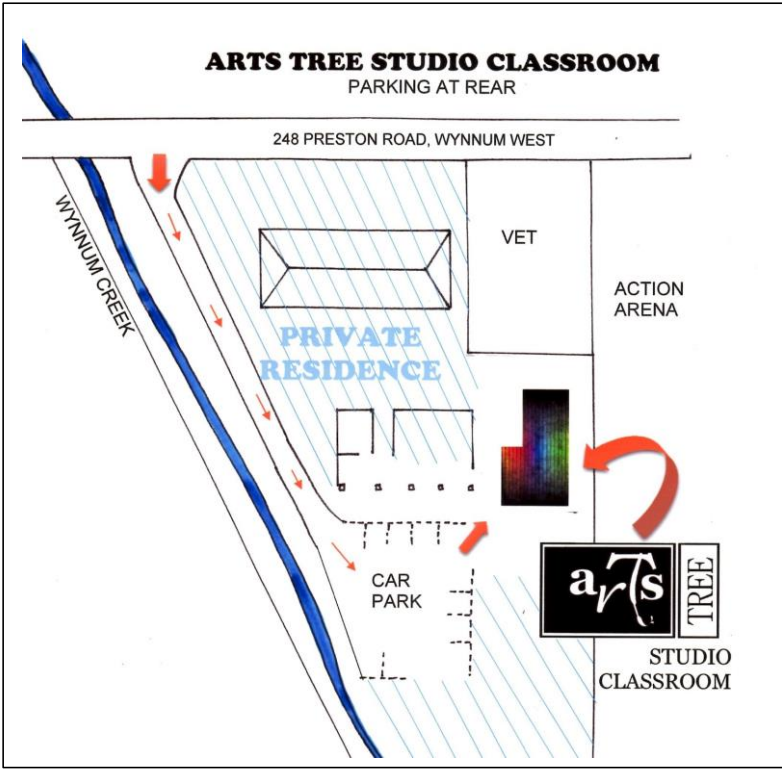

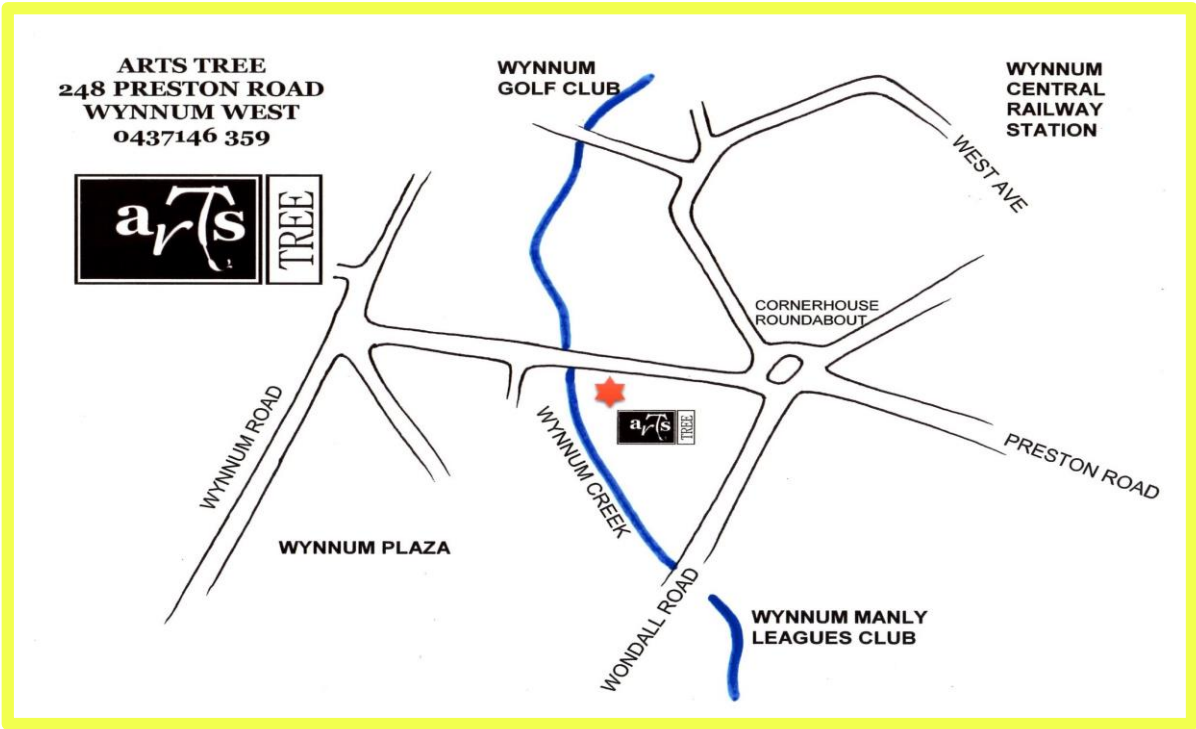

### Extensive handouts, Life Model and all other materials supplied by Arts Tree

The Arts Tree Drawing workshop offers the analytical drawing skills you need to draw well. We begin by spending each morning working from photographs to learn the vocabulary of drawing- thrust, vector, plumb-line, positive and negative shape, gesture, tone and more.

The tutor initially demonstrates each strategy, before students have a go at applying it to their own drawings.

Each afternoon, a professional life model poses for us while we apply and cement those skills using charcoal on paper. The tutor assists each student on a one-on-one basis, correcting errors and suggesting which strategy to apply to solve each drawing challenge. We introduce both very short (30 second) and long (20 minute) poses, allowing the student to build the skills required to continue practising and building their ability after the workshop.

**Here's where you find us!**

**248  
Preston Road  
Wynnium West**

Onsite parking at rear

Gates open 30mins before the Workshop

Next door to Wynnium Bayside Vet Clinic & Action Arenas Indoor Sports Centre

Right beside Wynnium Creek
