

COLOUR WHEEL BASICS

OCTOBER 18, 2025

9:00 AM TO 3:00 PM

\$275 PER PERSON (SOME MATERIALS PROVIDED)

TUTOR: ALI GILLETT.

A single day workshop dedicated to exploring the many awesome gifts that the humble colour wheel provides, designed for brand new beginners through to intermediate creatives who are craving a bit of grounded guidance.

The colour wheel is a brilliant toolbox holding many, many tools that allow us to understand the various elements that are at play whenever we are working with colour. But like most tools, unless someone has taught you how to use them, it can be spectacularly un-useful!

We will begin the workshop by painting our own deconstructed colour wheels whilst we learn the language and introduce the purpose of each colour element in a painting.

We will then discuss the construction of the colour wheel and how it aids in finding successful colour schemes, explore how values and colour interact, and play with how temperature dictates what types of colours you're mixing.

Finally, we will round out the day with some colour mixing challenges that will help to broaden your colour horizons!

MATERIALS

- Acrylic paints: Naphthol Red Light, Quinacridone Magenta, Cobalt Turquoise Light Hue, French Ultramarine, Arylamide Yellow Light, Arylamide Yellow Dark, Titanium White, Carbon Black (or you can use the products at Arts Tree for an additional \$20 paid on the day)
